What is Academic Advising?
Academic advising is a collaborative process which assists you in the clarification of life and career goals and
development of educational plans to realize those goals. Working with your academic advisor will help you choose the
right courses for your program, keep track of your credits and requirements for graduation and insure you stay on track to
meet your goals.

Effective advising requires a partnership between the advisor and the student with shared responsibilities.

Student Responsibilities:
1. Be knowledgeable about ACC’s policies as they relate to you.
2. Research your program and career areas of interest.
3. Schedule and keep advising appointments each semester.
4. Come prepared for your advising appointments with questions and/or concerns.
5. Follow-through on advising recommendations in a timely manner.
6. Keep Advising Action Sheet and bring it to advising appointments.

Advisor Responsibilities:
1. Be knowledgeable about programs and graduation requirements, policies and procedures.
2. Encourage and guide students to develop and pursue their goals and create an academic plan.
3. Refer students to appropriate campus resources.
4. Be accessible via phone, email and by appointment and respond to students in a timely manner.
5. Follow through on actions promised to students.
6. Recommend appropriate classes and direct students to WebAdvisor, the college catalog and other
tools/resources to assist in course selection and registration.
