Horticulture Wins Again at NC State Fair

For the 5th year in a row, Horticulture Technology won First Place for an exhibit in the Garden Competition at the N.C. State Fair in Raleigh.

This year, the College competed in two themes—“Alice in Wonderland” which collected a First Place prize, and “Rolling Along,” which collected a Third Place prize. The themes are chosen by judges in the competition. ACC competed against professional landscapers this year.

For the “Alice in Wonderland” exhibit, Horticulture invited five other programs to collaborate on creating a mechanically-operated Cheshire Cat to greet visitors at the garden entrance: Advertising & Graphic Design, Mechanical Drafting, Computer-Integrated Machining, Industrial Systems and Welding.

“We receive the themes of the gardens in March and our Landscape Design class develops the designs at that time. We then work on the gardens through the summer and intensively on weekends and afternoons for a couple of weeks leading up to the fair,” said Horticulture department head Justin Snyder.

The “Alice” theme includes two scenes from the story and visitors enter through a rabbit hole built into a living wall. Three terrariums are encased in the living wall, each a mini-scene from the story. Inside, visitors stroll the Queen's Courtyard, complete with huge mushrooms, singing flowers and Playing Card characters.

The “Rolling Along” exhibit must incorporate water and for that, Horticulture envisioned a “wine lover’s garden,” Snyder said. A six foot by six foot wall of empty wine bottles are back-lit and serve as the backdrop for a waterfall that spills into and rolls along six small pools. More than 600 bottles, most supplied by Grove Winery near Gibsonville, are stacked in that wine wall.
