

CAREER and COLLEGE PROMISE

College Transfer Pathways
Career Technical Education (CTE) Pathways

Believe. Belong. Become.

About Career and College Promise

The Career and College Promise (CCP) program allows qualified high school juniors and seniors in North Carolina the opportunity to pursue college courses (tuition free) while in high school. The CCP program accelerates completion of college certificates, diplomas, and associate degrees that lead to college transfer or provide entry-level job skills. CCP is designed for students who are college ready while in high school and who want to get a head start on college.

Eligibility Requirements

To be eligible for a **College Transfer pathway, students must:**

- Be a high school junior or senior.
- Have a 2.8 or higher unweighted high school GPA **OR** demonstrate college readiness in reading, writing and math on a state-approved assessment test (SAT, PSAT, ACT, Pre-ACT, ACC placement test).
- Maintain at least a college GPA of 2.0 after two college courses for continued eligibility.

To be eligible for a **Career Technical Education (CTE) pathway, students must:**

- Be a high school junior or senior.
- Have a 2.8 or higher unweighted high school GPA, **OR** demonstrate college readiness in reading, writing and math on a state-approved assessment test (SAT, PSAT, ACT, Pre-ACT, ACC placement test), **OR** have written recommendation from the high school principal/principal's designee. If entering CCP upon principal/designee recommendation, student must meet the prerequisite for any course in the chosen pathway.
- Maintain at least a college GPA of 2.0 after two college courses for continued eligibility.

Community College vs. Four-Year University

Here are a few reasons why you may want to choose ACC.

- A community college can be less expensive than a traditional university and is designed so that students can later transfer credits to a four-year college or university.
- For some students, career goals can be easily met by the courses found at a community college, including many technical fields that larger universities do not offer.
- Recent statistics have community college graduates out-earning their counterparts with bachelor's degrees.
- The wide range of courses offered allows students who may be undecided about a career to experience a variety of fields without spending too much money in doing so.
- Statistically, students who transfer to a four-year institution from a community college are far more successful than those students who jump right to a four-year college or university.
- Many classes are smaller than university classes, allowing for a more hands-on approach between instructor and student.
- Registration and tuition are FREE.*
- Students receive high school and college credits for completed courses. Some courses are awarded honors or AP credit in high school and replace high school requirements.
- Any College Transfer Pathway course completed with a grade of 'C' or better is guaranteed to transfer to the 16 public universities in North Carolina and count toward completing a program at ACC.
- Students have access to all ACC campus and student services such as the library and tutoring services in the Academic Skills Lab, Writing Center, and foreign language lab.
- Students can ease into college life and learn what it takes to be a college student and how to get the most from their future college experience; or they can transition directly from high school into their desired career or technical program at ACC—earning an associate degree sooner than expected.

TUITION COSTS—ESTIMATED SAVINGS

Cost of Tuition at ACC		Cost of Tuition at UNCG*	
Year 1			
Fall	6 credit hours	Fall	6 credit hours
Spring	6 credit hours	Spring	6 credit hours
Year 2			
Fall	6 credit hours	Fall	6 credit hours
Spring	6 credit hours	Spring	6 credit hours
24 credit hours	FREE	24 credit hours	\$7104
<i>*Cost estimates based on 2020SP UNCG undergraduate tuition table</i>

OPTIONAL GENERAL EDUCATION HOURS (0-8 credit hours)

Applies to Associate in Arts Pathway and Associate in Science Pathway

A student may take up to 8 credit hours of foreign language courses and accompanying labs, in a single language, designated as General Education in the CAA as part of this pathway. These courses are not a part of the Universal General Education Transfer Component. Students who complete these courses with a grade of "C" or better will receive transfer credit. The receiving university will determine whether the courses will count as general education, pre-major or elective credit.
