College Committees 2022-23

Individually, we are one drop, but together, we are an ocean.
--Ryunosuke Satoro

College committees allow employees to work together in cross-disciplinary and cross-departmental teams to fulfill the College's mission, vision, and goals. ACC Committees help drive the essential work of the College in improving student access and success while providing comprehensive educational programs and services that advance our diverse population.

This document outlines the purpose and goals, leadership, membership, and meeting schedules for officially recognized standing College committees for the academic year **2022-23**.

As information changes, the document will be updated. Please share any updates or corrections with Executive Vice President Dr. Connie Wolfe at crwolfe041@alamancecc.edu.

General Committee Responsibilities

Committee/Group chairs and members should review the following responsibilities, which help to ensure the effective communication of committee work across the College.

Chair Responsibilities: Communicating Committee Work to the Campus

Chairs should follow their meeting schedules and make sure that someone records minutes or summary notes for each meeting. To aid college-wide communication, chairs or their designees should post committee agendas and/or minutes in the **2022-23** Public "P" Drive folder marked **ACC College Committee Meetings**.

Member Responsibilities: Communicating Committee Work to Their Colleagues

Committee members should participate regularly in meetings and share information gleaned from these meetings (as appropriate) with their colleagues.

Often committee members serve on committees in order to act as conduits of information to and from their departments, to receive feedback on initiatives, plans, and decisions. As you participate in meetings, consider what you should take back to share with your colleagues. Providing updates of committee work within your sphere promotes effective communication across the College.

- **Engage:** ACC will engage with Alamance County communities in new and innovative ways that deepen existing partnerships and create new ones.
- **Learn:** ACC will involve all students in innovative and inclusive formal and informal learning experiences that improve student success, prepare students for jobs, and provide a strong foundation for continued learning.
- **Equip:** ACC will equip faculty and staff with resources and experiences that enhance their engagement, sharpen their skills, and enable them to provide exceptional teaching and service.
- **Grow:** ACC will ensure that students, faculty, and staff have access to the resources they need to grow as healthy individuals.

Each priority has an implementation team charged with driving the strategic plan forward.
